PROFLIE

As a first-year software engineering student with a strong knowledge in C and C#, I am enthusiastic about the world of coding and software development. With a solid foundation in these programming languages, I am confident in my ability to create efficient and scalable solutions.

I am also eager to expand my skills further, I am determined to explore new technologies and frameworks that enhance my proficiency in software development. Seeking practical experience and opportunities to contribute to real-world projects, I am ready to leverage my expertise in C and C# to deliver impactful software solutions.
